Our Mission at CollegeFind

CollegeFind was born of the reality that middle and high school students—and their parents—face an increasingly complex world as they navigate their way through secondary school toward college and life beyond college. More households than ever include two working parents and students with non-stop extracurricular activities, leaving little time for the often daunting task of analyzing skills and priorities and culling through colleges to find the perfect fit.

The CollegeFind mission is to help organize and “de-stress” this process, through a dedicated focus on the uniqueness of each individual, and scrupulous attention to clear communication and detail. We take the time to listen to your needs and desires to identify achievable options as well as to create realistic expectations. We work to match your individual academic and athletic abilities, your passions, interests and talents with a school that meets your needs.

At CollegeFind you will encounter a positive, enthusiastic environment. Our top priority is establishing relationships based upon a bond of mutual respect and trust. Through clear guidance and direction, and based on our integrity and experience, we can help you navigate your way through the management of your timelines and responsibilities to achieve your goals.

We know there is no substitute for thorough planning now, to create a better life in the future.

We invite you to explore all the pages of this overview and then contact us at your convenience with any questions and for more detailed information.
